News Release

For Immediate Release: April 29, 2019

Immediate water conservation request issued for Moloa'a customers

KILAUEA – The Department of Water (DOW) has issued an immediate water conservation request for the Moloa'a area until further notice in order to avoid a full water outage in the system. Loka Partners II, who owns and operates the water system in Moloa'a, is conducting repairs to their water pump.

Customers located in Moloa'a are asked to limit water consumption to essential uses only, which includes cooking, bathing and toilet flushing. Water conservation measures include refraining from car washing, turning off automatic ice makers, sprinkler systems and outdoor irrigation, and using water wisely both indoors and outdoors.

The DOW will provide a trailer mounted water tank which will be located at the water tank site near the south-eastern entrance to Koolau Road, for essential uses. Customers will need to bring their own water containers.

To sign-up to receive notifications by phone, text messages and/or emails regarding DOW service announcements; including emergency weather updates from the Kaua'i Emergency Management Agency (KEMA), visit www.kauai.gov/KEMA or call KEMA at 241-1800.

Updates will be provided if new information becomes available. To monitor updates online, visit www.facebook.com/KauaiDOW. For more information, please call the Department of Water at 245-5455.
